**AMENDMENT**

Hon. Commissioner of Patents & Trademarks  
Washington, D. C. 20231

Sir:

In response to the Office Action mailed June 5, 2001, please amend the above-identified application as follows:

**IN THE CLAIMS:**

Claim 2: (Three times amended) A golf shoe cleat comprising a body member having an outer face and an inner face, shoe mounting member having an axis AL which is perpendicular to said inner face and projecting outwardly from said inner face and adapted to secure said cleat in a receptacle in said golf shoe upon rotation of said shoe mounting member in said receptacle,

10 a plurality of shaped traction teeth projecting outwardly around the perimeter of said outer face, each traction tooth having an outer traction surface, each outer traction tooth surface having an outward angulation relative to said axis AL to provide lateral stability and enhanced traction through the plane of a golf swing and wherein said inner face has a peripheral edge spaced from said
